

*Celebrating One of America's Greatest Roads...*

This spectacular road, built in 1933, was designed to showcase the beauty

of the Black Hills and Mt. Rushmore. Some of its unique features, including one lane tunnels that frame Mt. Rushmore and wooden structures connecting the tunnels that we call "pigtails," slow the

traveler down so they have the opportunity to appreciate the wonders found along this 17-mile journey. Take your time and enjoy the majesty that surrounds you on this "must do" experience. Don't forget to stop by the visitor center, store and coffee shop at Spokane Creek for additional information, snacks, restroom, merchandise, coffee and more.
